CAREER SUMMARY

Software Engineer - Frontend
Nykaa | March 2022 to Current
Technologies: ReactJS, NextJS

- I'm a dual-team player: Catalog and Retail POS (Point of Sale).
- Leading the Catalog's frontend, I've spearheaded numerous initiatives for its enhancement.
- My role involves seamless cross-team communication and overseeing the web app on React and NextJS.

Software Engineer - Frontend
Oye Rickshaw | March 2021 to March 2022
Technologies: ReactJS, VueJS

- Engaged in app delivery and battery swap, I lead the front-end team.
- Pioneering micro-frontend architecture implementation.
- Tackling the complexities of shared code, resource management, and performance optimisation within micro-frontends.

Software Engineer - Frontend
Collegedunia | Sept 2018 to March 2021
Technologies: ReactJS, NextJS, Vanilla JS, JQuery

- Migrated our main website to NextJS. (Tech stack: next.js, redux, express)
- Built Frontend and UI of a CRM from scratch, using ReactJS. (Tech stack: react.js, ant.design, express)

EDUCATIONAL TRAINING

Amity School of Engineering & Technology
B.Tech in Computer Science (2014-2018)

- This was earlier affiliated with **Guru gobind singh indraprastha university.**
- Our final year project got selected for inter-college major project competition, which was about code smell detection.

Kendriya Vidyalaya No. 4, New delhi
High school

- Built Frontend and UI of an in-house project for shooting bulk emails from scratch. (Tech stack: Blade(laravel), SASS, Bootstrap 4, JavaScript, Gulp)
